Education

Dartmouth College, Hanover, NH **June 2028**
B.A. in Computer Science · Minor in Human-Centered Design GPA 3.71/4.0
Coursework: Software Design and Implementation, Full-Stack Web Development, Design Thinking, Security Engineering
Honors: Faculty Citation for Meritorious Performance (max. 1 per course) · QuestBridge Scholar (full scholarship)

Experience

Product Manager, Evergreen.AI **Mar–Jul 2026; Aug 2026–Present**
Dartmouth Center for Technology and Behavioral Health, Hanover, NH

- Lead a 7-person team (3 full-stack developers, 3 designers, 1 design consultant) building Evergreen, a faculty-overseen wellness platform with an AI guide, Evie; backed by **$5M in grant funding**.
- Shipped **7+ features across 17+ sprints** to 200 active student testers enrolled in a faculty-led research study.
- Turned student research and usability tests into an onboarding redesign (80 to 30 questions); **completion rose ~60% to 90%**.
- Partner with engineers on Evie's AI (tool calling, JEV model tests); **first-conversation completion rose ~50% to ~80%**.

Product Manager Mentor & Instructor **Aug 2026–Present**
DALI Lab, Dartmouth College, Hanover, NH

- Taught a 4-session PM course to **~15 students** at DALI, Dartmouth's startup-style lab for real partners; mentor 2 student PMs.

Product Commercialization Intern **May 2026–Aug 2026**
EchoStar Corporation, Littleton, CO

- On the product commercialization team at EchoStar (parent of Boost Mobile), shipped a self-serve Snowflake + Streamlit dashboard tracking **~13 product launches** for the 6-person team and 2 product leaders.
- Replaced cross-team data requests that took **up to a week** (~3 hours of manual filtering each) with instant, filterable reports.
- Interviewed 3 product leaders and gathered feedback from the full team to scope **~8 candidate pages down to 4** core reports.

Product Director **Feb 2026–Jul 2026**
Youphoria, Remote

- Joined a ~50-person social fitness startup (500+ users) as an intern; promoted to Product Director **in one month**.
- Pitched and launched Groups to fix steep drop-off after day 3; group members' **day-7 returns rose ~70%**.
- Partnered with marketing on launch pushes, defining the **target audience and messaging** for go-to-market.

Project Manager **Sep 2025–Mar 2026**
Design Corps, Hanover, NH

- Co-led a 2-person team studying how Dartmouth's 17 living-learning communities serve students (23 interviews, 41 students, 7 peer schools benchmarked); our 7 recommendations were cited in a President's Office report shaping a **~$500M capital initiative**.

User Experience Researcher **Nov 2025–Dec 2025**
Digital NEST, Salinas, CA

- At Digital NEST, a nonprofit training Central Coast youth for tech careers, self-proposed a 3-week study (9 interviews) finding only **5 of 17** new adult members finished required training.
- Delivered **5 pilot recommendations**; the org adopted my push to carry members from one season into the next.

Projects

Personal Dashboard **2026–Present**
Personal Project, github.com/Alex-Cruz-Valencia/Personal_Dashboard

- Built a daily-use hub (Claude Code, Cursor, Codex) merging Gmail, Calendar, and Todoist, saving **30–60 minutes a day**.

Leadership & Campus Involvement

- **Officer, Dartmouth Society of Computer Science Students:** oversee projects for a 50+ member club; ran professor talks and a hackathon with **25 finishers**.
- **Member:** SHPE, ALPFA, ColorStack · Dartmouth Tech Consulting Group (former UX/UI Designer)

Skills & Interests

Technical: Python, SQL, JavaScript/TypeScript, Snowflake, Streamlit, Next.js, Node.js, HTML/CSS, Figma, Google Workspace
AI: LLM tool calling, model evaluation, Claude Code, Cursor, Codex, CoCo, CoWork, Gemini (incl. custom Gems)
Product: Requirements, roadmapping, prioritization, user research, A/B testing, go-to-market, Jira, Confluence, Excel models
Languages & Interests: English and Spanish | Video games, boxing, poker, custom mechanical keyboards
